12 Step (Size: 122cm)

Pack Size: Individual

# The Bird House

## Bird Substrates

Bird sand and grit aid digestion and are packed with essential minerals to help keep birds healthy and hygienic. Crushed oyster shell is a natural source of calcium and helps prevent calcium deficiency and other common nutritional problems in pet birds. Crushed charcoal is also an excellent aid to digestion, it can be mixed with bird seed daily or scattered in small amounts on the bottom of the cage three times a week.

Bird Grit 2kg

**Code: 210605**
